

SOG

Extraordinary Tools & Blades

2008 Product Line

Why SOG?

Since 1986, we've been creating the strongest multi-tools on the market and the knives that make your buddies drool. We don't settle for the ordinary. We never did, and we never will.

Our split bullet logo symbolizes our determination to produce quality products that stand up to extreme conditions. It requires vision and tenacity to dream beyond the expected in order to create the exceptional. It takes a team that is dedicated and disciplined to hold exacting tolerances that can make the difference between magic and mediocrity... and all of this at affordable prices! Actually SOG products are so good... you'd expect to pay more.

This high-speed composite photograph was taken at a millionth of a second and captures a .45 caliber bullet after being fired from point blank range. The blade shows up white where lead has been deposited after 17 shots. This is a testament to the durability of SOG edges. Nobody should ever try to split a bullet with a knife edge, but isn't it nice to know that you could!

SOG's manufacturing plant in Lynnwood, Washington.

"I'd like to thank all of our customers through out the world who continue to support SOG products every day. I never would have envisioned that from our humble beginnings in 1986... how influential our designs have become. I am very excited this year to offer an incredible lineup of industry 'firsts'. As always, innovative solutions at affordable prices will continue to be our mission."

SOG Trident

"While serving in Iraq for the past two years as a DoD Contractor and Military Advisor, I always had SOG by my side. From the GOV-TAC, on my CLS (Combat Life-Saving) pack to my SCUBA-DEMO in my go-bag, the Pentagon Elite II clipped in my pocket, or the EOD Power-Lock; I never went anywhere without SOG by my side... My most used tool while in Iraq without a doubt has to be my EOD Power-Lock. Whether I was stripping or cutting wires, cracking open a cell-phone, scraping battery posts, punching holes in different objects, filling down metal obstructions, clipping off zip-ties, or just using it as a HAMMER, my EOD Power-Lock not only survived my abuse, it also survived IED attacks, an RPG attack & having been shot at numerous times (right along with me). Whatever I asked of my SOG Knives or Tool while serving in the Combat theatre of Iraq, they delivered time and again. WELL DONE SOG!!!"

"I discovered SOG knives during my career in the Marine Corps. After continuous need and practical use of the Para Tool in an extreme situation, I was thoroughly convinced that SOG would stand up to any situation. Every SOG product I have ever owned has outlasted and outperformed all other edged weapons or tools I have tried. Now, in my current job, and as law enforcement officer, my colleagues' continuously reaffirm SOG as an elite choice. Whether it's in the field, on the street or even at play, SOG weapons stand out and hold up to any occasion. SOG helps create the tools we want and need."

In addition, Drake earned the position as a lead instructor for ARRESTLING. He currently works as a military contractor, as well as a reserve police officer.

"I carried the SOG PowerLock into the Australian bush with me while training troops for The Great Raid, and it proved to be the only tool I needed for bush-craft, equipment and weapons repair. When we got to shooting, I wasn't surprised to notice quite a number of the working Australian movie crew also carried SOG multi-tools. This is the best of a long line."

"I've used SOG knives and tools for years... and I'd expect few people give them the workout I do in field work for movies and TV. My field gear always includes a few SOG blades and they've never failed me. The range, quality and design are all top-notch. I especially appreciate the thought and practical user aspects that go into SOG knives. They fit the hand and fill the bill."
